# Oweninny Wind Farm Phase 2 Notification of Turbine Component Delivery

Dear Householder/Business Owner,

The purpose of this communication is to provide you with an update on the delivery of turbine components for Phase 2 of Oweninny Wind Farm.

The delivery of turbine components is scheduled to commence on the **1st March 2022** and will be ongoing until the **end of September 2022**. In the interest of public safety, these deliveries will be undertaken at night by a specialist contractor and will be escorted by An Garda Síochána. The components will travel from Killybegs Port to site via Donegal, Sligo, Ballisodare, Ballina and Crossmolina. During the delivery of these components, a number of parking restrictions will be implemented along the route. We wish to advise all residents and business owners to be aware of all local signage and notifications regarding these parking restrictions.

In advance of these deliveries, we wish to thank you for your continued cooperation and support during the construction on Phase 2 of the Oweninny Wind Farm. In the meantime, should you require more detailed information on this matter please contact me on 086-8106583.

Yours Faithfully,

*Richard Cosgrove*
